

Professional Disclosure

I _____ (Parent / Gaurdian of _____)

understand and accept the following:

Vandana Pitke is not a licensed physician.

Homeopathy is a two hundred-year-old system of healing. Homeopathic remedies do not treat specific conditions but stimulate the body's defenses to heal. The homeopath views a person's health as a condition of the entire individual rather than in terms of the presence or absence of isolated symptoms. Remedies are selected which best correspond to the person's total state. Homeopathy is a system for the overall enhancement of my health.

The F.D.A. regulates homeopathic remedies and classifies them as over-the-counter medications. As no prescription is necessary, I am choosing to administer homeopathic remedies to myself.

While I am consulting her for homeopathic advice, I agree to maintain my relationship with my regular health care providers. I realize and agree that I alone am responsible for my health and well being.

Vandana Pitke holds BHMS ;a 5 and half years Bachelors degree in Homeopathy from Pune University , India(2003) . She is a Certified Classical Homeopath (CCH) by the Council for Homeopathic Certification (2016) and a registered homeopath with the Society of Homeopaths of North America (RSHom(NA)).(2016) ; member of National Center for Homeopathy (2016) .
